COMPANY PROFILE:

RM METALS is an ISO 9001:2015 certified company specialized in the trading and distribution of prime stainless steel coils, sheets, and plates to the metal service center industry for over 30 years. We are headquartered in South Plainfield, New Jersey, and have warehouse and processing facilities in various cities throughout North America.

TRADING AND DISTRIBUTION:

Our company's main focus is on the trading of stainless steel flat-rolled products. Worldwide procurement empowers us to offer our customers a competitive edge based on international pricing.

RM sources primarily from Asian and European mills that hold ISO 9001 and other accepted accreditations. Items we have regularly in stock include 201, 301, 304, 304L, 316L, 316Ti, 321, 409, 430, and 439. Material that is pre-ordered and ready for shipment from the mill has a shipping lead time of approximately 5 to 6 weeks. Production orders may take up to 60 to 90 days to ship. Future orders can be purchased on net or base plus surcharge pricing at the time of arrival.

We are able to provide direct delivery from our local warehouses. Mill test reports are available for all material. We stock our prime material in New York, New Jersey, Maryland, Georgia, Pennsylvania, Indiana, Illinois, Ohio, Michigan, Texas, and California allowing prompt delivery.

COMPANY PHILOSOPHY:

Customer satisfaction and product quality are vital components of our business model. We have an experienced team that is knowledgeable in analyzing material requirements, sending samples, and providing digital pictures for immediate review. During order processing, we can arrange online viewing of material running on the line. Customers can also have access to our 24/7 helpline.

CREATING A NEW STANDARD FOR QUALITY, INTEGRITY, & RELIABILITY
